2. Shef Edwards telephoned about Board proceedings now that Harry Reynolds is no longer with us. I told him I thought it might be well to have [REDACTED] pick up the residue of functions left by Harry and that I would arrange an early meeting of Gordon, Shef and Larry Houston in order to discuss this matter.

3. Shef is also concerned about a memorandum which the I&R Staff has sent to DD/S concerning the mission and function of the Office of Security. While he would just as soon drop the whole matter, there is nothing in the regulation which would get anybody excited. I told him I would take a look at it as soon as it comes in.

5. I talked to [REDACTED] janitorial services [REDACTED] I told him it seemed to me that the General Counsel had gone into a lot of matters which were not at all legal and which the Office of Training should have looked into a long time ago. I re-emphasized my desire to push this matter vigorously.

6. [REDACTED] telephoned to say that he had polled all members of the Career Council on legislation and had unanimous agreement that we should not put in for any retirement legislation in the next session of the Congress. I agreed to report this to the Director at the next Deputies' meeting.

7. Shef Edwards telephoned to request my permission to take [REDACTED] on his forthcoming trip to Europe and I approved.
